- (5) Diploma of the Public Health Inspectors' Education Board

To the Chairmen and Members of the
Epping Urban and the Epping and Ongar
Rural District Councils

Ladies and Gentlemen,

The compilation of annual reports or statistical reviews has never been one of my favourite duties, but I am nevertheless somewhat sad that this should be the last occasion on which I have done so as your Medical Officer of Health.

After 127 years of great achievements the office of Medical Officer of Health will cease to exist on the 1st April, 1974. The National Health Service Reorganisation Act, 1973, requires that Community Health Councils should prepare and publish reports "on matters relating to the operation of the health service within the district", but there are no details about the form and contents of such reports.

Imperfect as the present statistics may be, they are nevertheless, a valuable assessment of the health of the community and I hope that similar, and indeed improved, information will be available in the future.

At present the Medical Officer of Health also has the opportunity to comment freely in his reports on any matter he chooses and even to criticise, if necessary, the attitude and performance in the field of public health of his own employing authority. The right to do so without fear is guaranteed by statute.

It seems that this powerful voice will be stilled since the future Community Physician will neither have the duty to publish an annual report nor the security of tenure of the office which the present Medical Officer of Health enjoys.

The Statistical Review for 1972 which I have pleasure in presenting to you does not reveal any particular changes, either favourable or unfavourable, in the health of the population. On the whole the figures are satisfactory and compare well with those of other similar local authority districts and of England and Wales.

To conclude I must once again thank all those who helped me in my work during the year and particularly those who have contributed data for this Statistical Review.

I am,

Yours faithfully,

I. ASH, MD, MFCM, DPH
Medical Officer of Health

E P P I N G U R B A N D I S T R I C T
